Dear sir/madam,

Thank you ever so much for raising a fantastic £311.20 for the Cystic Fibrosis Trust by organising a Wear Yellow Day last term, we really appreciate your ongoing support of the charity.

The money raised will help us fight to beat cystic fibrosis and make a daily difference to the lives of those with the condition and the people who care for them.

Most people don't understand what cystic fibrosis is, or what it does, until someone close to them is affected by it. As you may know, the gene for cystic fibrosis is carried by over two million people in the UK, most of whom have no idea. Events and fundraising initiatives such as yours helps us raise that much needed awareness of cystic fibrosis.

Most people with cystic fibrosis look perfectly healthy. But it's a lifelong challenge involving vast daily intakes of drugs, time-consuming physiotherapy and isolation from others with the condition. It places a huge burden on those around them and can critically escalate at any moment.

Your donation is helping us make a difference to those living with cystic fibrosis, so thank you ever so.

If you'd like more information, a certificate for a display at the school, or for a representative to give an assembly, please do not hesitate to contact me.

Kindest regards
