

## SCIENCE

Children will be creating a circuit to have a desired effect (creating an alarm to signal the arrival of an intruder - Captain Hook!) They will be using buzzers and on/off switches, and drawing their circuits using the correct scientific symbols.

## HISTORY

Children will be finding out about Mayan civilization and how they have impacted on society today.

## PSHE

Throughout the term, we will be covering Changing Relationships and Managing Transition so the children are in a better position when it comes to preparing for secondary school.

## PE

In PE children will be focusing on a variety of athletics skills working with SCL. This will be linked to sports day. They will also be playing as part of a team in rounders, building on their striking and fielding skills from previous years.

## MUSIC

The children will be working together to learn different song and various techniques needed when it comes to performing to an audience - this will be mainly done through our summer production - don't forget tickets!..

# Year 6 Summer

## GO GIVERS

Children will be participating in a national initiative exploring and understanding a range of social and environmental problems affecting society.

## ICT

The children will be using a range of ICT programmes to research and present findings linked to the Go Givers initiative. They will also be extending their coding skills, building on their Scratch knowledge.

## DT

Children will be developing their understanding of food technology, including health and safety through small group cooking sessions.

## RE

Based on Hampshire's curriculum for schools, 'Living Difference', we will be asking the children to reflect on Rites of Passage in the Christian and Jewish faiths.
